

## **DIRECTOR GENERAL**

**Francisco Javier Baratech Torres** is a Civil Engineer graduated from Universidad Politécnica de Madrid, 1982. He completed his training at IESE - Competitive Strategy Workshop, 1994.

He began his career in Canal de Isabel II participating in data capture and the modeling of the water distribution network of Madrid. Then, he then went on to perform his work in engineering, studies, and projects at NIPSA as an engineer in nuclear and hydraulic power plant projects and then as head of the company GIS systems (1982-85). From 1985 up to 1989 he held the position of support, pre-sales, and commercial engineer at Prime Computer.

In 1989, he began to develop his activity in the public sector within the Tragsa Group working as Director of Information Systems of Tragsatec from 1989 to 2006. He became Director of Information Systems of the Tragsa Group from 2006 to 2012 and finally as Director of Technologies and Agricultural Services at Tragsatec from 2012 to 2016.
